#### A PIFTEEN-MINUTE COURTSHIP

From the Louisville Courier-Journal

About two years since Sister Mary Funk, a young lady of most respectable parentage and a devout convent at the corner of Chestnut and Shelby streets, and was after this a sub-teacher in the school at ton streets. Some time after this there came a request for the services of a sub-teacher in the convent in Jeffersonville, and Miss Funk, still under the direction of the prioress, accepted the situation, and perform-

ed her work well and faithfully. During all the time that she was connected with the convent here as a lay sister, those associated with her now speak of her as a true woman, in the strictest sense of the word. She never complained, went straight forward in the performance of the duties that were assigned to her, and at times seemed perfectly satisfied with her life, and, like the other members of the noble sisterhood, she was always ready to sacrifice her own happiness and comfort, and, if necessary, her life, in order to alleviate the sufferings of those who were in distress.

After some time, and for what reason no one knows, Miss Funk became dissatisfied with her life, and concluded to marry. The more she studied about the charms of doubleblessedness the more she was convinced that she wanted to marry. As no one knows the secrets of the human heart, it is only just to say that no one has a right to ci ticise her acts. It is said that she sated to a friend that if she could find man who suited her tastes she would marry him in fifteen minutes. The matism, Weak Spine, Local Pains, Ner. | marry him in lifteen minutes. The wedding occurred about in-teen days since. The gentleman she married is named Hillerbrand, and ie has for some time been employed at Arterburn's place, on the Brownboro road. This is a remarkable care, as a sister who once enters a convent seldom leaves it, but prefers to leave the world with its joys, its sorrows and its myriad of sins behind her. Miss Funk had not entered the final order of sisterhood, and if she saw proper to change the life that she had started out to lead with the best intentions, it certainly is a credit to her to come out openly and act her part as she has, and, if she is happy and contented, the world will find no fault with her conduct.

Too Many for Bayard.

A prominent western democrat, member of the national central committee, in an interview last Saturday, at Chicago, said: In Massachusetts Gen. Butler received 110,000 votes, while the democratic nominee received only 10,-000, if anything, stronger than the democratic party. In Connecticut the only man on the democratic ticket elected was a known greenbacker. In Bayard's recent speech there was not one word said against the national banks issuing money, while it is clear to the great bulk of the people that if paper be by the government and not by private corporations. He would certainly be looked upon as being in favor of the money power of the east, as against the people. The fact that the great mass of the people of all parties are opposed to the withdrawal of greenbacks will, to say the least, injure his chances as a presidential candidate. Trade Marks.

to reply to Temperance in your issue of the 3rd. I agree with him that "license or no license will be a most absorbing question," and I beg to assure him that "it is possible to gain the consent of the temperance people to a fair discussion of the subject." I will allow "that honest temperance people do differ as to the best way of suppress ing intemperance", but honest temperance people should not differ as to facts; and I think honest temperance people "can look the facts in the face and tell money is to be issued at all it should you that there is less drunkenness in Decatur than there was in the days of the saloons," and honest temperance people who have anxiously watched the experiment of no license are far from "believing it a failure." It is true there have been some "disgraceful scenes" under the no-license system, but are the disgraceful scenes enacted back of our business houses on Saturday any more disgraceful than the same scenes licensed and enacted by the side of our business houses six days in the week, diciary committee has prepared a bill to instead of one? To your next, "do not many men who used to drink a glass of beer now buy a gallon of whisky, take to Denver, and an assay obtained Satit home and remain drunk while it lasts" temperance people will say they do not believe that they do; if many young men (old ones, too) who occasionally took a glass of beer now keep their gallon of whisky and drink it," is it the fault of the no-license system or of the beer that created the appetite for the whisky? Do a majority of the saloons desire a return to the license system? if not why are they stirring so hard to elect aldermen that will grant license, and threatening to leave the city if defeated? and if they are making more money than when they had to pay license, why do they apply for a renewal of license? and candidly, now, my "temperance" friend, if they now sell "drunkenness and death", would it be anything less than "drunkenness and death" if you license it? and do you believe it right to license the sale of 'drunkenness and death"? then let us unite on the best means of controlling the whisky traffic, instead of wasting our strength on a system that has been weighed in the balance and found wanting, and we will insure good govern. ment and prosperity for our citizens. Anti-License.

General Secretary's Report for January.

To the Executive Committee of the Young Men's Christian Association of Decatur: DEAR BRETHREN. Although our work as an association is not without many encouraging features, we notice, with regret, that many of our members seen to have forgotten that the object of the association is to promote growth in grace and Christian fellowship among the mem-Tilden will not be a candidate for the bers, and aggressive Christian work, and consequently do not feel any personal responsibility in aiding in the attainment of that very worthy object. Owing to the fact that church duties are of first imporconvention. The delegation will be tance, and are so considered by our memfriendly to him, and through it he is bers, the number of our meetings and the likely to inform the democracy of his re- attendance of the same have not been so

During the past month three new members were enrolled, two visits were made to the sick, four members sat up with the dead, six meals and four nights' lodging were furnished, 13 persons were furnished clothing, and two with grocer es; one Testament and 300 papers, maga, zlnes and tracts were given away; 420 invitations to attend meetings were distributed, and 625 visits were made to the

association rooms. The following meetings were held: Daily prayer meetings, 27; cottage prayer denounce fraud and force at the elecmeetings, 6; Tuesday evening meetings, tions; call for pure and free elections meetings, 6; Tuesday evening meetings, 4; ones, the state of the state Bible study, 4; business meeting, 2; exc utive committee, 1-total, 51.

The thanks of the association are due to the Social Entertainment Club and the Young Women's Christian Temperance Union for liberal cash donations. The former donated \$26.77 to the poor fund, and the latter \$25 to the gymnasium fund.

The gymnasium is ready for use. The rules and tickets are printed and may be had by those entitled to them of the secretary of the rooms. I would suggest that the gymnasium committee be authorized to procure the services of some competent person as director or instructor for the department under their charge.

With an earnest desire for the enlarged usefulness of the association. I am your brother in Christ,

1. J. Davis, Gen. Sec.

THE Maine conspiracy, though defeated, shows the desperate steps which the democratic party is prepared to take in order to carry the next Presidential election, and ought to be a warning to the Republicans to be on their guard at every point. As the Leader said in the beginning, the possession of the state offices was not the real prize for which the conspirators were contending. The conspiracy contemplated the transference of the electoral vote of the state of Maine to the democratic candidate. This Maine business was simply A PRESS dispatch from Effingham, that nobody out of New York State and dishonesty, and Republicans may that nobody out of New York State and dishonesty, and Republicans may rest assured that the minds which control is. the beginning of a campaign of fraud cooted this infamous scheme are busily WONDER what Carl Schurz thinks of as transparent. DENVER, Col., Feb. 3 -There is a great excitement in Denver over the new discovery of gold near the mouth of the canyon of the Platte, a mile from the South Park Railroad, and only twenty miles west of Denver. A vein of mineral was struck in the Dolly Varden mine, at a depth of twenty feet last Friday. A specimen was brought urday, the assay giving the value of the ore at \$21.199 per ton; \$20.176 of it being gold. A publication of these facts was made in one of the papers Sunday morning, and before night a hundred people were on the spot. Up to the present date 500 have visited the place, and 200 locations made. WASHINGTON, Feb. 3.-The President o day nominated James Q. Howard, of

Columbus, O., who wrote the campaign Life of Hayes," during the last Presilential campaign, to be Appraiser of the Port of New York. Secretary Sherman and all the Treasury officials were anxious that Gen. Ketcham, one of the four general appraisers for the country at large, should be appointed, but the President decided otherwise.

George Walker, of New York, nominated as Consul General at Paris. A number of the Democratic Sena-

tors who have held a secret conference decided to make the unseating of Senator Kellogg a party question, and to force action at the present session. It was stated at this conference that all the Democratic members of the Committee on Privileges and Elections would unite on a report declaring that Kellogg is not entitled to the seat he now holds, but Judge Spofford is. The Republicans will resist such a report, and expect to be able to make considerable capital against the Democrats for re-opening the case after it had once been disposed of by the Senate.

The Senate Finance Committee today formally decided to report adversely on Warner's Silver bill.

Representative Wood has abandoned all idea of getting through his refunding bill, and is anxious to have General Garfield consent to a compromise measure. The members of the ways and means committee say that it is doubtful whether any refunding hill will be passed this session.

HARRISBURG, Pa., Feb. 3.-The following is an abstract of the resolutions which will probably be adopted by the republican state convention which will meet here to-morrow: They declare that the resumption of specie payments and revived prosperity of the country are the result of the financial policy of the country, and protest against any changes in or disturbances of that poliey, and against any tinkering with the tariff or currency; oppose any attempt to regulate tariff duties by commercial treaties; the firm and indivisible union of states; the right of every man to be protected in life, liberty or property; late the people of Maine on their successful resistance to fraud, and thank the republican members of congress for their resistance to state rights and to democratic efforts to break down all congressional protection for the purity of the ballot box.

A cancus of Blaine delegates was held to-night, at which there were 165 votes east in his interest. Afterwards a caucus of all the delegates was beld, and it was decided, by a vote of 123 to 110, that the convention to-morrow should select delegates to the national convention.

St. Petersburg, Feb. 3.—The Her ald, referring to the supposed intention of Persia, under British inspiration, to seize Herat, says: "This step would be hostile to Russian interests. Russia certainly will not retire before so small an Asiatic State, incited by a foreign power." The Herald points out that England is not in a position to defend Persia against Russia.

AUGUSTA, Me., Feb. 3 .- In the House an order passed that the committee on the alleged bribery of members proceed at once with the investi gation and report as soon as possible. It was also ordered that the judiciary committee inquire into the advisability of amending the constitution of the state so that the right of suffrage shall be limited to those who are able to read and write the English language.

Studying the subject objectively an I from the educational point of view—seeking to provide that which, taken altogether, will be of the most service to the largest number—I long so concluded that, if I could have but one work for a public library. I would select a complete set of Harpers Monthly —Charles Francis Abanas, It is contents are contributed by the most eminent authors and artists of I urope and America, while the long experience of its publishers has made them theroughly conversult with the desires of the public, which they will space no effort to gratify.

The volumes of the Magazine begin with the Numbers for June and December of each year When no time is specified it will be understood that the subscriber wights.

Stable Floors

Mr. J. Wilkerson, a raral architect of much experience, in the turf, field and farm, has hit upon the following plan for the improvement of stable floors The floor is made level fore and aft, but leaving a gentle slope from each of the two sides to the center, or half the width of the stall. The planks are laid crosswise, inclining to the center, just wide enough for the urine to drain through a metal gutter under the floor, which conducts it outside the building to a hogshead or to the manue pit This prevents it from being absorbed in the bedding, which, otherwise, is wet tetid and uncomfortable to the horse The cleanliness of this airangement of the floor is another advantage, as it admits of the animal lying as he always does, where he can, in pasture fields, i. e, with his back up the grade Then the floor, being always kept dry, makes a good bed for the horse without litter, during the summer months, besides being cooler and freer from the ammonia which the latter exhales

Theebaw, king of Burmah, is so much occupied just now with the elective light that he has forgotten all about war with England Burmese official has brought the new light to the notice of the mon arch, hinting, also, that it is an invention of his own For this important discovery he has been raised several degrees in rank, and at present the court at Mandaliy can think of nothing else
